**Subject:** Tonawanda Coke - CONFIDENTIAL

CONFIDENTIAL - NOT FOR DISTRIBUTION

Angela/Joe – Attached is some background on Tonawanda Coke FYI. Given the active site operations, remedial actions on-site have been greatly hindered on the larger, eastern parcel. We have been working toward a ROD for the western parcel.

We are drafting the EPA request letter presently. We'll share the draft this am that will lay out the scope contemplated.

DEC had been seeking to revoke this facility's Title V and Air State Facility permits after repeated environmental violations, however TCC is now shuttering the plant. This will happen over 7-10 day beginning on Monday, which is when DEC and EPA (if you're on board), would be on-site. Staff will be overseeing oven shut down, etc. we are looking to Joe's group to take on site stabilization, hw disposal, tanks, security, etc.

Maybe we can have a call later this morning?

Mike
